

Jula the Eagle ~ Washi

Jula, the Eagle, is one of 62 different types of his species. He is the most ardent of the bird family, and his knowledge of council laws is second to none.

His sharpness and direct attitude contribute to the strength of the council. Jula can command an army from a mile high in the sky and see the tip of a pinhead.

Jula can morph into hundreds of species of birds and go from looking like he can kill to being a beautiful Dove, but beware!
