

## Kas the Bee ~ Hachi

Kas is a beautiful bee, one of 20,000 in her species and a rare queen.

She is methodical in all her actions and stands at the top of the hierarchy. Kas never stops striving for happiness and will do everything she can to maintain equilibrium.

Kas, a mistress of disguises, can transform in just a couple of folds to become an Asian hornet and kill with a single sting; she, too, can choose the level of venom she wishes to deploy.
