

Navi the Owl ~ Re-Na

Navi serves as the Head of the Kami council.

Navi is a long-whiskered owl from Peru, likely the rarest of all owl species. He is renowned for his wisdom. Over 268 owl species exist globally, but many have become extremely rare due to human interference.

He has held the position of council head. He will continue to do so owing to his capacity for listening and making informed decisions that benefit everyone, not just a single individual.

Do not be deceived by his soft feathers and vacant stare; he can fight off the largest eagles and instantly shred a one-inch-thick piece of bone. However, he prefers to avoid violence and will do everything he can to prevent it.
