## Savi the Dragon ~ Dorogan

Savi, the Dragon. She is a remarkable specimen with ruby red colours and a smile that could burn a thousand ships should she change it to a snarl—one of the rarest of all the creatures of Kami. Savi is a mediator in all realms and has been for millennia.

She can breathe fire as hot as the Sun's centre and chill a pond or small river in a milli-second.

She is the one who opens the realms to speak with the selected humans.

She protects the sacred Human selected hundreds of thousands of years ago. Now, in the year 2025, she must protect one of only two direct descendants who can talk with Kami.
